

Cambridge Waste Water Treatment Plant Relocation Project

Phase three consultation 24 February – 27 April 2022

We have launched our phase three consultation on the Cambridge Waste Water Treatment Plant Relocation project. We want to hear your views on the detailed design proposals for the new facility, including our comprehensive mitigation measures i.e., how we'll minimise the impact of the new facility and preliminary environmental information. You can access our consultation materials and provide your views at any point between 24 February and 27 April. We value all feedback.

For this phase three consultation we have also published our Preliminary Environmental Information Report (PEIR), which has been informed by the environmental studies and assessments we have carried out to date. The PEIR is designed to help you understand the likely environmental effects of the project and inform your consultation response at this pre-application stage. Also available are our draft management plans which show how we will minimise impacts on the local community and environment, and our draft Development Consent Order (DCO) which outlines the powers we will be seeking to construct and operate the new facility.

Copies of the phase three leaflet, the PEIR, and all associated consultation materials are available via our website (www.cwwtpr.com), by request via our contact channels, and at the Community Access Point locations listed on the back of the leaflet. Project information is also presented on our website via our virtual exhibition and digital engagement platform.

You do not have to supply personal details; however, it will help us to work towards engaging the community during the consultation period and to enable us to contact you regarding the Cambridge Waste Water Treatment Plant Relocation (CWWTPR) project. Your personal details will be stored in compliance with the Global Data Protection Regulation (GDPR) by Counter Context acting on behalf of Anglian Water and will not be shared with third parties.

Registration details

Name:		Title:		Date:	
Organisation: (if applicable)					
Address:					
Postcode:		Telephone:			
E-mail address:					

1) How would you describe your interest in the proposed Cambridge Waste Water Treatment Plant Relocation (CWWTPR) project? Please tick the most relevant.

☐ Local resident	☐ Local representative	☐ Landowner	☐ Local business owner
☐ Regular visitor	☐ Local interest group member (if so, please name)	☐ Statutory organisation	
☐ Other (please specify):			

2) Would you like to receive our community newsletters to keep up to date with the progress of CWWTPR?

☐ Yes via post

☐ Yes via email

☐ No

Part A

Our Proposals

As part of this final phase of consultation, we want to hear your views on our detailed design proposals for the new facility and surrounding site area, proposed mitigation measures to minimise impacts on local communities, and the opportunities identified for environmental enhancement beyond the site boundary.

We welcome your feedback on our detailed design proposals, proposed mitigation measures and opportunities for environmental enhancement beyond the site boundary. You can view these proposals in our Phase three community consultation leaflet and online at www.cwwtpr.com.

3) We have presented information about how the facility will reduce carbon emissions in our Carbon Paper. Are there other measures or suggestions you would like to see us consider as we develop our plan for reducing carbon emissions during construction and operation of the new facility?

4) The design of the gateway building has changed following phase two consultation and we present an updated proposal based on feedback showing a more natural entrance to the facility which blends into the earthwork bank and planted screen. What are your views on the revised design proposal, including its function, size and scale?

Strongly support	Support	Do not support	Strongly oppose	Don't know
☐	☐	☐	☐	☐

5) Do you have any other comments or suggestions on our proposals for the Gateway Building?

6) In our preliminary environmental information we have shown how odour from the facility will not adversely affect people's homes or enjoyment of the surrounding area, and outlined the design measures we will adopt to minimise odour. Do you have any comments or suggestions for further measures you would like to see in our Odour Management Plan?

7) Do you have any other comments or suggestions on our odour mitigation proposals?

8) We have explained updated proposals for a Discovery Centre to provide a managed educational resource, by appointment only, for local schools and community groups. Do you think these visitor opportunities are suitable for the new facility?

☐ Yes

☐ No

9) Do you have any other comments or suggestions on our proposals for visitor access to the new facility?

10) Do you think the mix in our landscape proposals between providing places for people and nature is appropriately balanced?

☐ Yes

☐ No

11) Do you think the mix in our landscape between woodland and grassland is appropriately balanced?

☐ Yes

☐ No

12) Do you have any other comments or suggestions on our proposals for the landscape in the area?

13) We have shown photomontages of views at years 1 and 15 of the new facility from Horningsea Road. Do you think the density and location of the planting proposed is enough to reduce the visual impact of the new facility from that location?

☐ Yes

☐ No

14) We have shown photomontages of views at years 1 and 15 of the new facility from Fen Ditton. Do you think the density and location of the planting proposed is enough to reduce the visual impact of the new facility from that location?

☐ Yes

☐ No

15) We have shown photomontages of views at years 1 and 15 of the new facility from Low Fen Drove Way. Do you think the density and location of the planting proposed is enough to reduce the visual impact of the new facility from 'that location'?

☐ Yes

☐ No

16) Do you have any other comments or suggestions on our proposed visual impact mitigation measures, including the five other photomontage locations included within our Preliminary Environmental Information Report (PEIR)? This could include any further locations from which you think we should consider.

17) Do you think our proposals to enhance access to green spaces provide an inviting place to visit and improve recreational facilities for pedestrians, cyclists and equestrians?

☐ Yes

☐ No

18) Are there other recreational initiatives which we should be aware of when finalising our proposals?

19) We have shown proposals for a new 4-arm signalised junction between the A14 and Horningsea Road to provide a permanent access to the facility, with measures to control site traffic and provide separation from pedestrians and cyclists. Are there other measures you would like to see to mitigate any remaining potential impacts on road users?

20) We have presented estimated operational traffic volumes and types in our Preliminary Environmental Information Report (PEIR) and proposed mitigation is set out in the Travel Plan. Are there other measures you would like to see to mitigate any remaining potential operational traffic impacts?

21) We have presented estimated construction traffic volumes and types in our Preliminary Environmental Information Report (PEIR) and proposed mitigation is set out in the Construction Traffic Management Plan (CTMP). Are there other measures you would like to see to mitigate any remaining potential construction traffic impacts?

22) We have presented proposed mitigation in the Code of Construction Practice (CoCP) for non-public highway construction phase impacts eg. construction site noise, dust and pollution control. Are there other measures you would like to see to mitigate any remaining potential non-public highway construction impacts?

23) Do you have any further comments or suggestions on mitigation measures we should consider when preparing for the construction phase?

24) Based on the information provided in our consultation material, overall how supportive are you of our developed design proposals?

I strongly support the developed design proposals

☐

I support the developed design proposals

☐

I am neither supportive or unsupportive

☐

I do not support the developed design proposals

☐

I strongly oppose the developed design proposals

☐

Please explain why you think this.

Part B

Our consultation process

25) How did you find out about this consultation?

- ☐ I received a leaflet ☐ I saw it advertised in local media ☐ I received an email ☐ Via a local community group
- ☐ Word of mouth ☐ Other (please specify):

26) Did you visit the virtual public exhibition on our project website www.cwwtpr.com, or attend one of our community information events, either in-person or our online webinar.

- ☐ Yes ☐ No

27) Did you find the consultation methods and materials available were informative about our developed design proposals for the relocation project?

- ☐ Very informative ☐ Quite informative ☐ Not informative ☐ No opinion

28) Please provide any comments or suggestions on the consultation and what we could have done differently?

29) Do you feel your views have been considered as the proposals for the project developed? Please indicate.

Strongly agree

☐

Agree

☐

Disagree

☐

Strongly disagree

☐

Don't know

☐

If you have received our feedback form in the post or downloaded it from our website, you can either send it to us via post or email it using the details below. If you have any further questions or want more information, please contact the project team using one of the channels below.

Visit our website at
www.cwwtpr.com

Please note that the deadline for the submission of feedback for our phase three consultation is at 23:59 on **27 April 2022**. Following the close of our phase three consultation, we plan to submit our final Development Consent Order (DCO) application to the Planning Inspectorate (PINS) in late 2022.

Get in touch

Our dedicated project website, email address, Freephone information line and Freepost address all remain open if you have any questions.

You can contact us by:

Emailing at info@cwwtpr.com

Calling our Freephone information line on **0808 196 1661**

Writing to us at **FREEPOST: CWWTPR**
